Harmony[®]

The striking new range of shower heads from Aqualisa

Harmony shower heads

Combining contemporary looks with great functionality, the new Harmony shower heads from Aqualisa are now featured across many of our ranges – old and new. Designed to deliver an uncompromising showering experience from both high and low pressure systems, Harmony is packed with thoughtful, user friendly features.

Harmony teams the deluxe 105mm head with our Quartz Digital, Quartz Thermo, Dream and Aspire shower systems, whilst the compact 90mm Harmony head partners our new Colt and Siren, as well as Aquastream, Midas 100 and 200. With some clever tweaks, and featuring five spray patterns, Harmony is the perfect match for Quartz Electric. Plus, with a Harmony shower head our Midas 100 now performs superbly on low pressure water systems as well as high.

- Impressive spray patterns and uncompromising showering experience
- Water saving 'eco' spray setting on mixer ranges
- Anti limescale, rub clean nozzles to help maintain shower performance
- Thoughtful anti-twist hose connection to extend the life of the hose

Harmony heads are available with the shower ranges below

Optimising your shower

The cleverly designed spray patterns deliver a concentrated and fuller spray for a satisfying showering experience, even with low pressure water systems.

Easy clean nozzles

Harmony's rub clean nozzles are designed to make cleaning and limescale removal easy, reducing the need for chemical de-scaling, and maintaining shower performance.

Water saving

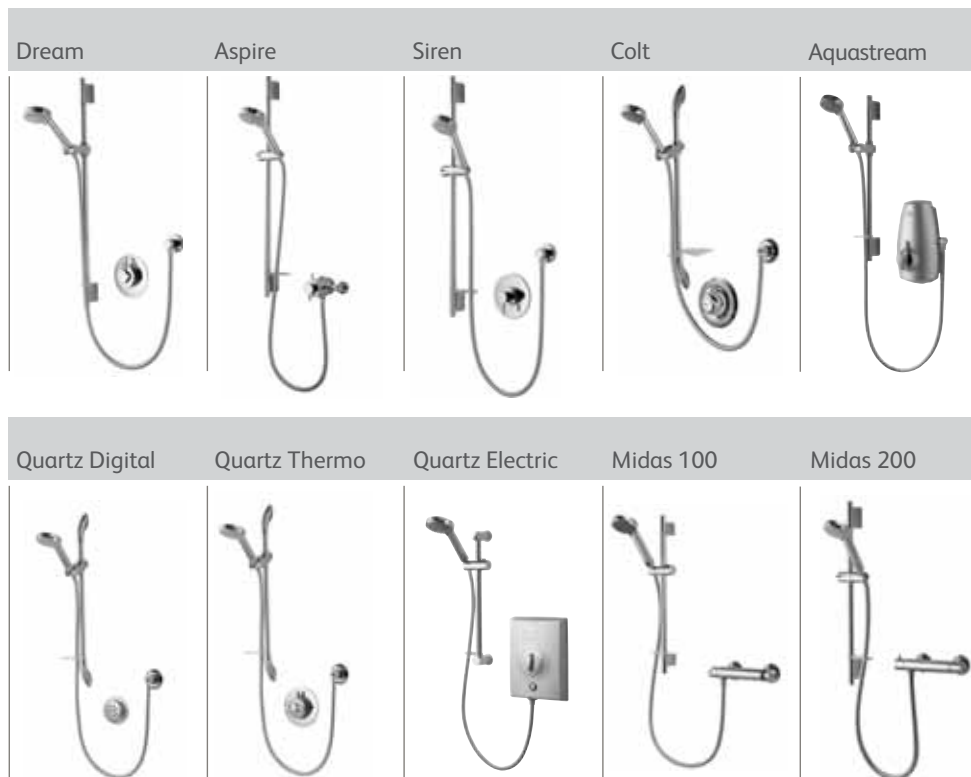

Harmony's 'eco' spray setting, on mixer showers, is capable of delivering up to 25 % water saving, without compromising the showering experience.

Anti-twist hose connection

A thoughtfully designed anti-twist mechanism allows the shower head to swivel independently from the hose to avoid twisting, maintaining performance and extending the life of the hose.

Harmony shower heads are now available with these Aqualisa showers
