Everyday perfection...

The Jasper Morrison collection has been designed to improve your daily bathing experience. Simple, pure styling creates modern shapes which have a timeless appeal and are a real pleasure to use.

The Jasper Morrison collection is designed to work throughout the home – from family bathroom to cloakroom and ensuite installations. This allows you to create one integrated look that flows harmoniously from room to room. The teardrop handle on mixers and showers adds a touch of design inspiration that is distinctively Jasper Morrison and brings the whole look together.

The philosophy behind this collection is to consider every detail of your bathroom – including how you use water. The range of mixers feature an oval spout with a specially designed aerator to deliver a water flow that is reminiscent of a natural waterfall. Simple, clever design that improves your daily experience.

With infinite attention to detail Jasper Morrison combines shapes to create a look that is cool, contemporary and classic. The curved panel of the signature bath wraps around a double ended bath that is wider and longer than usual for luxurious bathing. The same soft shape is echoed in the vessel basin which is then offset by the solid profile of the wall hung furniture. This is well crafted, understated design that can be enjoyed by everyone.

Storage and furniture are integral to this collection and contrast strikingly with the soft outline of the basins. Chunky, wall hung cabinets with deep solid-surface countertops provide essential storage space without compromising on style.

The subtle combination of curves, soft squares and ovals provide a sense of harmony and balance perfect for relaxation. Every element, from fittings to storage is beautifully proportioned and has been considered as part of the whole.
